Join Transmit Security's Mosaic Partner Network

Unlock New Opportunities in Identity Security

What is the Mosaic Partner Network?

The Mosaic Partner Network is aimed at bringing the Mosaic Platform together with the leading cybersecurity, identity and fraud prevention vendors in the market to join hands and build a secure, well integrated identity and fraud stack for our customers.

Partners onboarding to the Network will be included in the **Mosaic Integration Hub** which is a centralized marketplace where enterprises discover and deploy pre-built integrations to connect Mosaic with their existing security stack. This eliminates custom development, enabling customers to quickly extend their identity security capabilities.

Key Features

✅

Centralized discovery and management of integrations

✅

Low-code orchestration with built-in retries, logging, and normalization

✅

Automated workflows and real-time journey integrations

✅

Direct integration with Mosaic's enterprise security platform

Why Partner with Transmit Security?

⚡ Powerful Platform Capabilities

- **Pioneering Identity-Fraud Fusion:** Uniquely combines Identity Verification (IDV), advanced fraud prevention, and comprehensive Customer Identity and Access Management (CIAM) into a single platform.
- **Seamless Integration:** Low-code tools, developer-friendly APIs, and SDKs simplify connectivity.
- **Advanced Detection & Response:** Predictive AI for real-time risk and fraud prevention.
- **Intelligent Orchestration:** Out-of-the-box decisioning rules, drag-and-drop journeys, and AI assistance.
- **Integrated Identity Verification:** Robust ID and selfie analysis for streamlined verification.

🎯 Strategic Market Position

- **Enterprise Focus:** Trusted by 10s of Fortune 500 companies for identity security (Including HSBC, Citi, USBank, and more)
- **Growing Ecosystem:** Expanding marketplace with qualified enterprise customers
- **Proven Track Record:** Recognized industry leader in identity and fraud prevention (most recently in the Forrester Wave Leader - Forrester Report | Transmit Security)

🤝 Partner Benefits

- **Marketplace Visibility:** Featured placement in our Integration Hub used by enterprise security teams
- **Qualified Leads:** Access to customers actively seeking integration solutions
- **Co-Marketing Support:** Joint GTM initiatives, case studies, webinars, and enablement resources
- **Technical Simplification:** We handle the integration complexity—you focus on your core value

Partnership Journey - Simple & Streamlined

1   **Apply**   Complete our Partner Intake Form with your integration details and use cases.

2   **Discovery Call**   30-minute session to align on technical requirements and partnership scope.

3   **Integration Development**   Our team builds and tests the integration connector—minimal effort required from your side.

4   **Review & Launch**   You review the integration, provide feedback, and we launch together with co-marketing support.
